

Varier®

Re-imagine comfort with  
Gravity™ in sheepskin

2025 Product update

## A Varier classic with a new, soft expression

Re-imagine comfort with Gravity™ in sheepskin. Enveloping and soft, meticulously crafted to facilitate moments of reflection and complete relaxation.

Sheepskin is a natural material of the highest quality. Originally intended to protect, warm, and preserve. It is soft to the touch and in its essence a highly durable material. No two sheepskins are ever identical. Differences in wool structure, density and original color affects ability to absorb dye. These qualities make each chair completely unique. We are happy to partner with Swedish company Skandilock for this new edition of Gravity™.

A close-up photograph showing the texture of sheepskin upholstery. The sheepskin is a light cream color with a thick, curly fiber. It is draped over a wooden chair leg, which is a medium brown color. The background is a plain, light-colored surface.

Gravity™ in Sheepskin

Gravity™ in Light Brown ash with sheepskin in 09 Moonlight. Sheepskin is breathable with temperature-regulating qualities. It keeps you warm in winter and cool during summer – a natural material with built-in care all year round.

## Scandinavian craftsmanship

Skandilock is a Swedish company specializing in sheepskin. They have produced sheepskin products for furniture and interiors for more than three decades, with roots and expertise dating back to the 1960s. Founded in 1994 by Claes Borgvall, the family-run company is now led by the third generation.

The sheepskins are sourced from Merino Crossbreds raised in Australia and New Zealand for meat and wool production. Using sheepskin in furniture manufacturing is a way of utilizing a fantastic material that would otherwise be discarded.
